

# ASSET MANAGEMENT

Cherrie Campbell

Welcome to the RAMM User Group for 2018, held at The Vines Resort, Swan Valley.

# SHIRE OF KATANNING

Heart of the Great Southern

# ASSET MANAGEMENT

## Issues

- We had an issue with roads, drainage and culvert information collected in pocket ramm not syncing to the file once back in the office. This was a technical clitch which was managed by Fiona.
- Once this issue was fixed we started to play with the concept of entering other information into the program to identify Shire assets. It is time consuming but we are positive that once all the information is collected in the system it will delivery a much faster report that is required for budget.

# ASSET MANAGEMENT

## Pending

The Shire of Katanning are now in the process of importing the below information into the system:

- Footpaths – condition and type
- Bins – type/design photos will be attached
- Trees – species and location
- Parks – play equipment, photos will be attached
- Heritage buildings of importance in the Shire
- Parking Areas
- Street Furniture, photos will be attached

# ASSET MANAGEMENT

## Challenges

- To identify as much information for staff and the community
- Reporting on assets in the Shire
- Able to plan for the next works budget
- Pavement failures

# UP NEXT – IMPROVING ASSET MANAGEMENT WITH POCKET RAMM
